Announces

GeoMath Workshop for Northern Arizona

Presented by
Coconino County Schools and the Arizona Geographic Alliance

**Why should you come to the GeoMath Workshop
and use one of your valuable vacation days?**

- New lessons that will save you time preparing your day and still help you teach to the Standard
- Hands-on demonstrations of lessons that will help you meet and beat those state mandated tests
- Recertification hours (6)
- Participants will receive their own copy of the Alliance GeoMath CD containing 85 K-8 geography lessons integrating mathematics skills and concepts at the conclusion of the workshop

What is GeoMath?

GeoMath is a grades K-8 program of 85 lessons based on the Arizona state standards for geography and mathematics. Created by Arizona teachers, these lessons provide teacher instructions, student handouts, answer keys, maps, student samples, graphics and photos, and assessments that mirror state-mandated testing. It is a complete package of lessons to aid you in keeping social studies in the classroom while working on raising the math scores of your students. Piloting results from over 20 Arizona school districts show that GeoMath lessons teach both geography and math skills and concepts.

Where and When:

Ponderosa High School
2384 N Steves Blvd,
Flagstaff, AZ 86004

Wednesday
August 2nd, 2006
8:30 am to 3:00 pm
